## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 17, 18, 45 and 46 are rejected under 35 U.S.C. 112, sixth paragraph.

The following claim elements... claim 17, "means for splitting off a portion of the amplified input light"; claim 18, "means for splitting off a portion of the amplified input light"... are means (or step) plus function limitations that invoke 35 U.S.C. 112, sixth paragraph. However, the written description fails to clearly link or associate the disclosed structure, material, or acts to the claimed function such that one of ordinary skill in the art would recognize what structure, material, or acts perform the claimed function. Claim 45 and 46 depend on claims 17 and 18.

Applicant is required to:

(a) Amend the claim so that the claim limitation will no longer be a means (or step) plus function limitation under 35 U.S.C. 112, sixth paragraph; or

(b) Amend the written description of the specification such that it clearly links or associates the corresponding structure, material, or acts to the claimed function without introducing any new matter (35 U.S.C. 132(a)); or

(c) State on the record where the corresponding structure, material, or acts are set forth in the written description of the specification that perform the claimed function.

For more information, see 37 CFR 1.75(d) and MPEP §§ 608.01(o) and 2181.

### ***Allowable Subject Matter***
